

Industrial Technological Park “Northern Crystals”

Open Joint Stock Company “Northern Crystals” invites the companies to the Industrial Technological Park “Northern Crystal” which is located in Apatity town – the fourth town in the Murmansk Region according to population size. Area of the park is about 10 hectares.

Apatity town is at a distance of 23 km from Kirovsk town where industrial premises and headquarter of JSC “Apatit” is located. “Apatit” is the biggest company in the Russia producing apatit concentrate, a raw material for phosphor fertilizers. The mountain skiing center “Russian Laplandiya” is located in Kirovsk either, this center is the biggest in the Murmansk region and it has a good perspective to become a year-round international resort.

Distance to the main transport lines:

- 28 km to international road E 105
- 185 km to Murmansk city
- 13 km to airport Khibiny

At the territory of the Park the following manufactures are set

- Growing and finishing of crystals
- Manufacture of light-emitting diode (LED) lamps
- Manufacture of double-glazing windows
- Manufacture of foam concrete items

The main advantages of the Park:

- Ground area has the category of industrial lot;
- Manufacturing premises and offices are available;
- Access to all communications (water supply, sewerage system, electricity, telephone line, internet connections)
- Round-the-clock security

In the TechnoPark the following services will be provided:

- Preparation of admission documents for the manufactures placed at the territory of the Park “Northern Crystals” ;
- Providing technical and management assistance;
- Assistance in establishing contacts with scientists of Kola Scientific Center of the Russian Academy of Science;
- Assistance in design and building activity, besides assistance in obtaining admission documents and in interactions with authorities;
- Assistance in recruiting of personnel;
- Promotion of goods produced by SMEs at the market of the Murmansk Region and Russian Federation.
