Principles

Any action or business goal we pursue must be consistent with our basic values. As the foundation for ZDRAVMEDETEKH Basics, our basic values foster trust with all our stakeholders, helping us to meet or exceed their expectations.

Integrity

We treat everyone fairly and honestly. We comply with all applicable laws, regulations and internal policies.

Customer centricity

We put our customers at the heart of all we do. We utilize our global scale to turn insights and observations into useful ideas that we put to work for our customers.

Excellence

We aim for the highest quality and strive for continuous improvement in all that we do. We find new ways of solving problems. We test what we do and how we do it for fairness, diversity, trust, and mutual respect.

Teamwork

We work together as one team...one ZDRAVMEDETEKH. Collaborating and applying our global insights to deliver the best for our stakeholders. We value our diverse, talented workforce; and support them so that they can contribute to their full potential.

Sustainable value creation

We create and sustain value for our customers, our shareholders, our people and society. We maintain a culture of precision, stability and reliability that instills confidence and trust in our commitment to deliver when it matters – now and in the future. We focus on long-term success over short-term gains, and aspire to be agile and to manage change smoothly along the way.
